Agency: Ministry of the Environment and Climate Change / Brazilian Institute of Environment and Renewable Natural Resources (IBAMA)

NOTICE No. 25753718/2025-Gabin from December 19th of 2025

THE PRESIDENT OF THE BRAZILIAN INSTITUTE OF ENVIRONMENT AND RENEWABLE NATURAL RESOURCES (Ibama), in the exercise of the powers conferred upon him by Decree No. 12130 from August 7th of 2024, which approved Ibama's Organizational Structure, published in the Official Gazette of Brazil on the following day;

Taking into account the provisions of Law No. 6938 from August 31st of 1981; Law No. 9605 of February 12th of 1998; Law No. 14785 from December 27th of 2023; Decree No. 4074 from January 4th of 2002; Joint Normative Instruction SDA-Mapa/Anvisa/Ibama No. 2 from September 27th of 2006, which sets the procedures for agronomic, toxicological, or environmental reevaluation of pesticides, their components, and related products; and Ibama Normative Instruction No. 17 from May 1st of 2009, which sets the procedures for environmental reevaluation of pesticides, their components, and related products;

Taking into account Normative Instruction No. 2 of February 9th of 2017, which establishes guidelines, requirements, and procedures to assess the risks of pesticide active ingredient(s) to pollinating insects, using bees as indicator organisms;

Considering the adverse effects on non-target organisms, especially bees and aquatic organisms, associated with pesticides containing METHOMYL and THIODICARB, as observed in scientific studies and in various parts of the world;

And considering that studies have shown that THIODICARB breaks down quickly in the environment, forming METHOMYL as its main metabolite, HEREBY ANNOUNCES:

1. THE START of the environmental reevaluation process for pesticide products containing the active ingredients METHOMYL and THIODICARB.
2. WITHIN 30 DAYS from the publication of this Notice, the REGISTRANTS of the products listed in Annexes I and II of this Notice must submit to Ibama, individually, the documents and information set out in Annex II of Ibama Normative Instruction No. 17/2009.
3. Products based on the active ingredients METHOMYL and THIODICARB that, on the date of publication of this Notice, already have an Ibama-issued Environmental Hazard Potential assessment result, but whose registration has not yet been granted by the competent authority, will also be re-evaluated and will be subject to the same requirements described in item 2.
4. Products containing the active ingredients METHOMYL and THIODICARB with Environmental Hazard Potential assessments approved as of the date of this Notice will be subject to the same requirements imposed on those undergoing environmental reevaluation, to ensure equal treatment for all REGISTRANTS of products based on these active ingredients, pursuant to Article 32 of Law No. 14785/2023.

Signed electronically by RODRIGO AGOSTINHO
President of Ibama

ANNEX I – PESTICIDE PRODUCTS BASED ON METHOMYL

- Registration No. 31618, Brand Name ASSARIS, Registrant SINON DO BRASIL LTDA.
