Notice No. 25886596/2026-Gabin

THE PRESIDENT OF THE BRAZILIAN INSTITUTE OF THE ENVIRONMENT AND RENEWABLE NATURAL RESOURCES (Ibama), in the exercise of the powers conferred upon him by Decree No. 12130, of August 7th, 2024, which approved Ibama's Regulatory Structure, published in the Federal Official Gazette on the following day:

Taking into account the provisions of Law No. 6938, of August 31st, 1981; Law No. 9605, of February 12th, 1998; Law No. 14785, of December 27th, 2023; Decree No. 4074, of January 4th, 2002; Joint Normative Instruction SDA-Mapa/Anvisa/Ibama No. 2, of September 27th, 2006, which establishes the procedures for the agronomic, toxicological or environmental reassessment of pesticides, their components and related products; and Ibama Normative Instruction No. 17, of May 1st, 2009, which establishes the procedures for the environmental reassessment of pesticides, their components and related products;

By reason of Ibama Normative Instruction No. 2, of February 9th, 2017, which establishes guidelines, requirements and procedures for the risk assessment of pesticide active ingredient(s) to pollinating insects, using bees as indicator organisms; and

Considering that the assessments already carried out indicate the potential existence of environmental risk to bees for products based on FIPRONIL with various use indications;

1. CAUTIONARILY SUSPENDS the administrative acts known as Environmental Hazard Assessment Results (PPAs) issued by Ibama for pesticide products containing FIPRONIL under environmental reassessment, for the following application methods, due to the lack of interest by registration holders and/or registrants in defending such use scenarios, in accordance with Article 2, item I, of Law No. 7735/1989, until the conclusion of the environmental reassessment of the active ingredient (a.i.):

1.1. Seed treatment:

1.1.1. in barley, sunflower and pasture crops, at any dose;

1.1.2. in peanut crops, at doses exceeding 35 g of a.i./100 kg of seeds, as well as in crop-rotation scenarios, at any dose;

1.1.3. in bean crops, at doses exceeding 70 g of a.i./100 kg of seeds;

1.1.4. in sorghum crops, at doses exceeding 75 g of a.i./100 kg of seeds, as well as in crop-rotation scenarios, at any dose;

1.1.5. in wheat crops, at doses exceeding 50 g of a.i./100 kg of seeds;

1.2. Soil application:

1.2.1. in corn, soybean and duboisia crops, at any dose;

1.2.2. in potato crops, by directed spray into the planting furrow, at doses exceeding 144 g of a.i./ha;

1.2.3. in potato crops, during hilling, at doses exceeding 180 g of a.i./ha;

1.2.4. in eucalyptus crops, at doses exceeding 240 g of a.i./ha, limited to four applications per crop cycle.

1.3. Seedling immersion:

1.3.1. in eucalyptus, rubber tree, acacia, black wattle, araucaria, paricá, pine, poplar and teak crops, at doses exceeding 100 g of a.i./ha.

2. CORRECTS item 5 of Notice No. 13577989, of September 8th, 2022, published in the Federal Official Gazette No. 173, of September 12th, 2022, in order to RESUME the processing of assessment requests for registration and registration amendment purposes concerning items I, II, III and V of § 4 of Article 22 of Decree No. 4074, of January 4th, 2002, for formulated products containing the active ingredient fipronil, considering the content of the main clause of Article 29 of Law No. 14785/2023.
3. INFORMS that applications concerning use scenarios (active ingredient, crop, dose, application method, number of applications) not authorized by the date of publication of this Notice must submit all data, tests and information required under the environmental reassessment.
4. FURTHER INFORMS that, in view of the equal treatment that must be afforded to all registration holders of products containing fipronil, pursuant to Article 32 of Law No. 14785/2023, products with PPAs approved as of the date of this Notice shall be subject to the same requirements imposed on those undergoing environmental reassessment.
5. REITERATES that the suspension remains in force for the use indication involving total-area foliar spraying, that is, spraying not directed to the soil or to the plants, in the Environmental Hazard Assessment Results (PPAs) of pesticide products containing FIPRONIL under environmental reassessment, pursuant to Notice No. 17895409-Gabin, published in the Federal Official Gazette No. 247, of December 29th, 2023.
