Ministry of Agriculture and Livestock/Secretariat of Agricultural Defense. Ordinance SDA/MAPA No. 1,631, of May 26, 2026.

### **ORDINANCE SDA/MAPA No. 1,631, OF MAY 26, 2026**

Establishes the guidelines, responsibilities and procedures for the implementation and operation of the Unified Electronic Information, Petition and Evaluation System – SISPA.

The Secretary of Agricultural Defense of the Ministry of Agriculture and Livestock, in the exercise of the powers conferred by Articles 23 and 48 of Annex I to Decree No. 12,642, of October 1, 2025, and considering Articles 5 and 58 of Law No. 14,785, of December 27, 2023, and the contents of Case No. 21000.023024/2025-73, resolves:

#### CHAPTER I

#### GENERAL PROVISIONS

Article 1. The guidelines, responsibilities and procedures for the implementation and operation of the Unified Electronic Information, Petition and Evaluation System – SISPA are hereby established.

Article 2. For the purposes of this Ordinance, the following definitions apply:

I – Unified Electronic Information, Petition and Evaluation System – SISPA: the single system for evaluating applications for pesticide registration and registration amendments;

II – suspended evaluation: the status of an application indicating the temporary suspension of analysis and of the counting of deadlines for its conclusion;

III – registration: the electronic submission to SISPA of information on companies, users, products and other data necessary or complementary to the evaluation of registration and post-registration applications;

IV – Unified Social Credit Code – USCC: a unique identifier assigned to companies and other entities registered in China;

V – component: other ingredients and additives used in the manufacture of formulated products and related products;

VI – security manager: user profile designated by the company, through a valid legal power of attorney, to manage, among other duties, the registration of its legal representatives in SISPA;

VII – migration: procedure carried out by the registrant company to enter into SISPA data, studies, documents and information from existing product registration applications already submitted to the federal evaluating agencies;

VIII – trade name of component: trade name of other ingredients and additives used in the manufacture of formulated products and related products;

IX – new application: a new registration request submitted through SISPA;

X – tax identification number for foreign companies: code assigned by tax authorities to companies not resident in Brazil that carry out commercial activities in a given country;

XI – unique mixture number: identifier automatically generated by SISPA for the registration of mixtures;

XII – object of application: subcategory of the type of application;

XIII – federal evaluating agency: the federal agency responsible for agriculture, health or the environment, responsible for evaluating applications according to its respective competence;

XIV – product: generic term referring to technical product, pre-mixture, other ingredients, additives and formulated product;

XV – component registration: registration of the component in SISPA, to be carried out by the registrant company;

XVI – type of company: categorization of companies according to the purpose of operation or activity provided for in the product registration or record;

XVII – type of application: category of request organized as registration, post-registration or other amendments; and

XVIII – user: individual registered in the single gov.br portal who uses SISPA.

Article 3. SISPA will be available on the Federal Government's digital citizen relationship platform, through user registration and identification.

Article 4. The registrant company or registration holder shall be responsible for submitting data, information and documents in SISPA and shall:

I – verify the truthfulness, validity and relevance of the data, information and documents;

II – migrate its applications in a timely manner;

III – keep its linked users updated; and

IV – ensure that its information is always up to date.

Sole paragraph. Companies may have their registrations cancelled or applications rejected if they fail to comply with items I and II of the heading of this Article.

Article 5. Electronic files uploaded to SISPA shall follow the guidelines established in Decree No. 10,278, of March 18, 2020.

## CHAPTER II

### SYSTEM IMPLEMENTATION

Article 6. SISPA shall be implemented according to the deadlines and schedule for registration, migration and submission of data set out in the Annex.

Paragraph 1. Migration to SISPA of applications already submitted through the systems of the federal agriculture, health and environmental agencies shall be mandatory.

Paragraph 2. The submission of new applications for registration or registration amendments after the deadline established in the Annex shall be carried out mandatorily through SISPA.

Paragraph 3. Applications referred to in Paragraph 2 submitted through any other available electronic system shall not be accepted or analyzed.

Paragraph 4. Companies shall be responsible for the timely migration of their applications, as well as for the accuracy of the information and documents provided during registration and migration, under penalty of having their registrations cancelled or applications rejected.

Article 7. The implementation stages of SISPA shall follow this order:

I – registration of Brazilian companies;

II – registration of trade names of components;

III – registration of component records;

IV – registration of migration applications for already registered applications or applications in queue for:

a) new technical products and their pre-mixtures, if any;

b) equivalent technical products and their pre-mixtures, if any; and

c) formulated products.

V – new registration applications or registration amendments.

Article 8. The Ministry of Agriculture and Livestock shall make manuals and guidance materials available on its website to support the use of the System.

### CHAPTER III

#### REGISTRATION OF COMPANIES AND USERS

Article 9. Companies indicated in product registration applications shall be registered in SISPA.

Paragraph 1. The registration referred to in the heading shall be linked to the type of activity and the validity of the company's registration with the competent agency, where applicable.

Paragraph 2. The company referred to in the heading may be registered under one or more types of activity.

Article 10. The registration of a Brazilian company shall use information contained in the databases of the Brazilian Federal Revenue Service and the National Health Surveillance Agency.

Paragraph 1. Changes in corporate name, address and company size shall be updated through a registration update request.

Paragraph 2. Each company shall be responsible for its registration, which shall be carried out by consulting the National Registry of Legal Entities – CNPJ and returning the identification data.

Paragraph 3. The data referred to in Paragraph 2 shall be complemented by the security manager.

Article 11. The registration of a foreign company shall use information contained in the database of the Ministry of Agriculture and Livestock.

Paragraph 1. Changes in corporate name shall be requested through a specific application available in SISPA.

Paragraph 2. The registration referred to in the heading shall be carried out as needed to fill in information in migration applications for already registered products or products in queue and in registration applications.

Paragraph 3. The tax identification number or Unified Social Credit Code shall be used for unique identification of the foreign companies referred to in the heading.

Paragraph 4. The information referred to in Paragraph 2 shall be entered by the company in the field defined as Industrial Registration in the country of origin.

Paragraph 5. The registration of a foreign company may be carried out by a user of a Brazilian company.

Article 12. The user shall register in SISPA with his or her Individual Taxpayer Registry number – CPF.

Paragraph 1. The registration referred to in the heading shall use information from the account in the single gov.br portal, established by Decree No. 9,756, of April 11, 2019.

Paragraph 2. The first access to the System shall be made by the user identified in the System as the security manager responsible for the company to be registered.

Article 13. User registrations and changes shall be carried out by the security manager, who may represent more than one Brazilian company.

Sole paragraph. The company shall request the Ministry of Agriculture and Livestock to correct and validate user registration in SISPA if inconsistencies occur that cannot be resolved by the security manager.

Article 14. Changes to company registrations made in SISPA shall be reflected only in documents issued after the change.

Article 15. The filing of new applications shall be permitted, provided that the company or user has updated documents in its SISPA registration.

## CHAPTER IV

### REGISTRATION OF TRADE NAMES AND COMPONENT RECORDS

Article 16. The manufacturer or supplier of the component shall be responsible for registering the trade names of its products, together with their respective commercial, health and environmental data.

Sole paragraph. Information provided by manufacturers or suppliers of the component shall not bind the decision of the evaluating agencies regarding the component.

Article 17. When the component is imported directly by the registration applicant or formulator, the latter shall be responsible for registering the trade name of the component.

Article 18. In the case of information considered confidential or restricted, the applicant company shall submit a data authorization letter from the component manufacturer.

Article 19. The registrant company or registration holder of the formulated product shall be responsible for requesting, in SISPA, the registration of the components used in the formulated products under its ownership.

Article 20. A component, when consisting of a mixture, shall be identified by its trade name and unique mixture number.

Sole paragraph. SISPA shall automatically generate the unique mixture number for the registration of mixtures.

Article 21. If a trade name has already been registered by another manufacturer or supplier of the component, a new trade name shall be assigned according to the following rules:

I – the common name of the component; and

II – the name of the manufacturer or supplier of the component.

Article 22. The declaration of the concentration of component ingredients shall be expressed as a percentage.

## CHAPTER V

### MIGRATION OF APPLICATIONS FOR PRODUCTS ALREADY REGISTERED OR IN QUEUE

Article 23. The migration of products already registered or in queue to SISPA shall be mandatory and the exclusive responsibility of the registrant companies.

Sole paragraph. The migration referred to in the heading shall be subject to approval by the federal evaluating agencies, and deficiency notices may be issued at any time through SISPA for the correction of information.

Article 24. Processes for products already registered shall be migrated and shall be considered under the same terms as the authorizations in force and the data available in the corresponding existing systems of the federal evaluating agencies.

Paragraph 1. Divergence of information between the existing systems of the federal evaluating agencies and SISPA, subject to the right to adversarial proceedings, may result in cancellation of the registration, without prejudice to other applicable liabilities.

Paragraph 2. Migration of ecotoxicology dossier data shall consider the information available in the Pesticide System of the Brazilian Institute of the Environment and Renewable Natural Resources – Ibama.

Article 25. Post-registration applications filed before the SISPA implementation date set out in the Annex shall not be migrated.

Paragraph 1. Pending applications referred to in the heading shall continue to be processed in the respective systems in which they were filed, until the date of completion of the analyses.

Paragraph 2. The registration holder shall update the data, information and documents in SISPA once the analysis referred to in Paragraph 1 has been completed, after a deficiency notice issued by the federal registering agency.

## CHAPTER VI

### PRODUCT PACKAGING

Article 26. Packaging for technical products, formulated products and pre-mixtures shall be automatically authorized, provided that the packaging capacity, type and material are included in a specific manual, periodically updated and made available on Ibama's website.

Paragraph 1. The registration holder shall keep all packaging in use updated in SISPA.

Paragraph 2. The inclusion of packaging types in the manual referred to in the heading shall be requested through SISPA, in a specific post-registration application or during the product registration application.

Paragraph 3. Packaging options available in SISPA shall be considered valid for submission purposes, regardless of whether they are included in the manual referred to in the heading.

## CHAPTER VII

### ORDER AND DISTRIBUTION OF APPLICATIONS

Article 27. Registration and post-registration applications shall be ordered in SISPA in queues, according to the type and object of the application, and shall consider the filing date and status of the application at each federal evaluating agency.

Paragraph 1. The chronological order of applications shall be monitored by the applicant through SISPA.

Paragraph 2. The general status of applications in queue, for active transparency purposes, shall be published by the registering agency on its website.

Paragraph 3. The ordering referred to in the heading shall not apply to cases of priority analysis of registration and post-registration related to phytosanitary demands or occurrences, pursuant to current regulations.

Paragraph 4. For ordering registration processes migrated to SISPA, the filing date of the existing application at the registering agency shall be considered after migration approval by the evaluating agencies.

Paragraph 5. The technical analysis of post-registration applications through SISPA shall only be carried out after completion of the analyses of post-registration applications being processed by the evaluating agencies, according to the type and object of the application.

## CHAPTER VIII

### DEFICIENCY NOTICES AND OFFICIAL COMMUNICATIONS

Article 28. It shall be the exclusive responsibility of the company, through its users, to periodically consult SISPA to verify the receipt of deficiency notices or official letters related to registrations and registration and post-registration applications.

Paragraph 1. A notice or official letter shall be deemed received on the day the user electronically accesses the content of the corresponding document, as recorded in SISPA.

Paragraph 2. The consultations referred to in the heading shall be carried out within fifteen business days from the date of sending of the notice or official letter, under penalty of it being automatically deemed received on the date this period ends.

Paragraph 3. Failure to comply with notices or official communications within the established deadline or within any extensions, where applicable, shall result in rejection of the application by the federal evaluating agency responsible for the notice or communication and by the registering agency.

Paragraph 4. The federal evaluating agency may grant an additional deadline to the applicant to respond to complementary requests, provided that the applicant submits a formal technical justification, recorded in SISPA and deemed appropriate, pursuant to Article 12, Paragraph 5, of Law No. 14,785, of December 27, 2023.

## CHAPTER IX

### COMMERCIALIZATION REPORT

Article 29. Until the module corresponding to commercialization and production reports is implemented, these reports shall continue to be submitted through Ibama's Pesticide System.

## CHAPTER X

### FINAL PROVISIONS

Article 30. Companies shall follow the implementation schedule to allow the formation of the database and the completion of applications.

Paragraph 1. Failure to comply with the schedule may prevent the continuation of the other implementation stages.

Paragraph 2. It shall be the responsibility of the registrant company or registration holder to control its internal deadlines and to agree with its respective commercial partners, where necessary, on the prior registration of third-party data and information to allow data migration.

Article 31. After the System implementation deadline established in the Annex, applications shall be filed electronically and exclusively through SISPA.

Sole paragraph. Applications filed through other systems shall be closed due to loss of purpose and shall be filed as new applications in SISPA.

Article 32. Situations not covered by this Ordinance shall be resolved by the federal agencies for agriculture, health and the environment, according to their respective areas of competence.

Article 33. This Ordinance enters into force on the date of its publication.

**CARLOS GOULART**

## ANNEX

Schedule and maximum deadlines for implementation of the Unified Electronic Information, Petition and Evaluation System – SISPA

ACTIVITY: Registration of component records, including trade names

DEADLINE: 90 days

IMPLEMENTATION PERIOD: From May 27, 2026 to August 24, 2026.

Migration of the following registered products and products in queue:

ACTIVITY: Technical products with complete dossier

DEADLINE: 60 days counted from the end of the deadline for Activity 1

IMPLEMENTATION PERIOD: From August 27, 2026 to October 24, 2026.

ACTIVITY: Equivalent technical products

DEADLINE: 120 days counted from the end of the deadline for Activity 2

IMPLEMENTATION PERIOD: From October 27, 2026 to February 22, 2027.

ACTIVITY: Formulated products and pre-mixtures

DEADLINE: 120 days counted from the end of the deadline for Activity 3

IMPLEMENTATION PERIOD: From February 24, 2027 to June 23, 2027.
